Engaged in the spring/ married July 22 65 36 In I.F. Temple In August after our honeymoon in Island Park we moved into an old home on 6 1/2 beautiful acres tucked away against the east bench of the Provo Riverbottoms about 3 miles below Provo Canyon. (Edgemont 1st Ward) The Fawcett Field Canal ran through the property the year around cutting the upper half which was rocky and sloped from the lower part which was flat with deep rich soil. The 2nd year we had a nieghbor, Ernie Tucker, bulldoze out the pear orchard and push the trees into a pile onto a small triangular corner above the canal to be burned. We planted alfalfa there, left the apple, plum, peach and cherry trees and divided the rest into pastures, built corrals and fenced 2 adjacent rented pastures. Our lane ran along the base of the hill above the stream to 3700 North.

In connection with what has been listed above the following comments will be added to supplement and expand some of the dates.

Ricks College. Whenever anyone asked if I was going to college near the end of my high school, I always said, Well, sort of matter-of-factly, I guess I'll go up to Ricks. Since Marj and Al had both gone there I think I always wanted to go there. But except for that incentive I really didn't have a desire to attend college. I had gone to ISU in Pocatello on senior sneak day and when I saw them serving beer on campus at booths set up in the gym I didn't want to go there for sure.

After a few days at Ricks following orientation which I enjoyed I left school, did not register and went back to work at the mill. I again went to Ricks to register for winter quarter and was disappointed by the classes available in Industrial Arts. And any shop classes were held at the old airport hanger on the hill, far above the campus. It was a long walk especially over the drifted roads. I was not impressed by the teacher, Hart, a nephew of Elden Hart of the school administration. So I dropped those classes. Since I had registered however, I could not leave without first going into the office of the president, John Clarke. He persuaded me to stay. I registered for other classes and stayed.

I moved into a basement kiddie-cornered from the 4th Ward chapel. I was there with Keith Larsen, a friend from my ward in Idaho Falls. There were 2 fellows there from Lost River. One was Bernard Tew. After a few days Keith and I felt the conditions in the basement were too crowded. They did put 2 many boys in the place and we found that 2 boys had moved out of coach Brick Parkinson's apartment. It was available and we took it. It was at the top of the street east of that same corner. We stayed there thru the winter quarter. In the spring we drove each day. I used my 35 Ford and on alternate weeks Keith drove his parent's 38 Ford. We had one passenger, Richard Brinkman also from our ward in I.F.

The next year I went to Ricks for Winter quarter. I think it was at this time, I became discouraged and was going to check out of school and had to go to the president's office and get his signature. He talked me into staying. It turned out to be a blessing to me. Then I didn't register for spring. Then when school ended I went out and stayed about a week in March at Uncle Jack and Aunt Evie's. She was always telling me every time I saw her, Come out and stay with us. So I did. We played pionacle after supper until bedtime. They always arose early. They had such a nice house and it was fun going with them to feed and the cows were beginning to calve. There were some heavy late snow storms.

Before school started the next year I got a letter from my county draft board. I was able to qualify for a deferment, because I had gone winter quarter, I had completed one full year of college and I signed up to graduate postponing the draft until after school and so I did that. From then on the next 3 school years I had to start in the fall term and go the year around. It turned out to be fun. I took Freshman English from Edna Ricks. I had learned and heard a lot from Al and Marjorie about her. I now was to learn a lot about them from her and a lot more about her one day in her

office. I signed up with Prof. Wendell Stucki as my major prof. and he helped me get thru. I graduated with a degree in Gen. Ag. and a minor in Animal Husbandry.

Ricks always had a great basketball team under Biddulph and then Brick Parkingson came up from Madison High to Ricks. At the end of the football season in 1952, he stopped me in the hall of the Spori bldg. one morning and asked that I come see him in his office. He offered me a scholarship if I would be the manager of the team for the coming season. That helped me get through my senior year. I had moved into the men's dorm that fall with 2 of my friends, also in the Ag dept. So I had room and board for the winter and the spring term. I had gotten rid of my Fords. Dad was using the '39 Ford. I had gotten a '42 DeSoto club coupe. When I went to the Army in July I left the DeSoto for dad to drive.

When I came home from leave in Nov. after 16 weeks of basic in Ft. Ord I drove it on a few dates. While at home I went to the temple and received my endowments. Then I flew to Camp Joyce Kilmer N.J. and toured downtown NYC in a taxi from the air port to camp. I saw the Statue of Liberty from a troop ship as we left the harbor and I was surprised to see the city sights. I was surprised to learn that Joyce Kilmer was a man. He was author of the poem, Trees which was made popular as a song by the Sons of the Pioneers.

I spent Thanksqiving in Saarbrucken. Then I was in Frankfurt and assigned out to Friedberg to the Sixth Army Field Artillery Battalion. Then I was there until time to ZI in May of 1955. Т took 3 leaves while there. 1st I went to Holland. Next to Cairo, Jerusalem, Lebanon, Greece, Italy and home thru Switzerland where the temple in Zollikofen (Bern). Later I went to we saw Switzerland, Paris, England, Holland and back to Germany. I left the battalion from Grafenwoher, thru Bremerhaven. It was nice to see the ocean without a ripple as we entered the NY harbor. As we left South Hampton the luxury liner the Queen Mary was coming into dock. When we came into New York harbor the same ship was leaving the harbor there. It seemed strange to imagine it was that much faster than the ship we were on.

As we came up to dock there were parents and family waiting for our ship. Some had signs with the names of the GI s the came to meet. Guys on our ship called down to them...he's not here, he jumped ship or he fell off and got drowned and all kinds of trash talk. It was funny. We went straight to a troop train. We stopped in Chicago. Some of us LDS stayed together. We took a walk along Michigan Ave. We could see Lake Michigan. It was the first time I'd seen a 6 or 8 lane highway. We were on the sidewalk. All at once one of the guys hollered..Look ! there's comrade! And we looked and there was a Volkswagen bug among all the other cars. Next morning we were in Colorado. Even sand and dirt blew into the train at times and then I looked out as it got daylight and saw Hereford range cows with calves trailing along. I wondered what they could find to eat in such a desolate looking place.

We arrived at Camp Carson. We were given a three day pass and told to come back on Monday. Ahead of us there was a group of men that were being terminated from the army. The army had decided about a year before that RA's (career men) with an IQ less than a a prescribed amount would no longer be allowed to reenlist. And

they anticipated the time to muster them out would be so much slower than normal that we may as well wait off base. On Monday everything went smoothly and quickly. Several of us from Idaho and Utah went to Denver, got a hotel, shopped for cars. We got a ride to Denver by a fellow I'd known in Friedberg that came home earlier when his wife was sick. He'd been in our branch. I got a 49 Mercury with over-drive. I learned for the 1st time that you had to have car insurance. I got it as did the other guys from Pre-ferred Risk, a company that only insured non-drinkers. I also learned I could not drive in Colo. since my Idaho license had expired. I had a valid military license which they did not accept in that state. We got our mustering out pay. Went to Denver, picked up our cars and headed home. Some of the other guys had valid licenses and drove until we reached Wyo. I could then drive too and we went to Ft. Hall where Norman Reese go off. Then a Brown from Thornton went the rest of the way with me. His parents met him at my folks place. I was home. Then it was to Island Park for the summer.

That fall I was at Utah State. It was a great fall. So many colors in Sardine Cyn. After one quarter, Morris Wright, one of my roomies in the Ricks dorm lived in the Delta Phi house. We were assigned to student teach in Vo Ag in Box Elder County the winter quarter. But we did not go back to school. I spent the winter and spring quarters at Ricks. I soon moved up there. I was glad to get out of our ward and go back to a college ward.

The spring I came back from Taiwan I went to the mill. Marj was there only part-time and the girls came up and cooked some of the weeks. Vic Erickson, a friend of David and Barry worked there. She hired cutters and haulers to clean up the section on Split Creek. Then she sold the mill to J.C. Stimson and we moved it over there. David came up and helped load the carriage and some other things with the Quik-way. While lifting logs from the stacks they unloaded full length trees. We measured and bucked them. Then put them on the skidway with the Quik-way. That was one of the most fascinating jobs I've ever had. It was real fun. But one needed to have an alert and nimble person running the tongs. It could get a bit ugly and uncomfortable otherwise. Dad was not fun to work with on this job. And Vic was careless. I knocked his feet out from under him one day as a pulled a log along and he didn't look and it caught a limb as it passed and took his feet out from under him.

I spent one fall after the mill was closed down cutting pulp wood for an outfit out of Wisc. Warren worked for them. I worked enough to pay for the Homelite chain saw that I got from them. It was rather fun. I hunted about as many days as I cut that fall. It was one of the most successful years I ever had hunting.

I will attempt sometime to rewrite some of the details of other experiences that took place during these years.

(Lindsay Murphy), Kathy, (Thomas Thorpe) and Tim. They have 35 grandchildren and three great grandchildren with one more due in July. Bernie delighted in his posterity.
